What format do you want your DVDs in? (If you require both it will be an additional \$15)

- DVD-Video Disc** - playable on a standard DVD player & computer with DVD drive.
- Data disc** - for copying the converted video to your computer for editing and playback.

We process customer's orders in the order that they were received. If you require your converted videos by a specific date we have a \$10 priority order option, please specify ___ / ___ / _____

Multiple copies of DVDs are available for \$15 each. Please make a note next to the tape title above.

Terms & Conditions

While the utmost care is applied to your precious tapes, Duplico Media Limited will not be held liable for tapes damaged during the conversion process. As is the nature of our business of converting old analogue media there is a slight chance that old media can be damaged during playback. Duplico Media uses the latest technology and cleaning methods to ensure all steps minimize the risk to your tapes. If tapes are damaged during conversion Duplico Media may still be able to convert the contents of the tape at a small tape-fixing fee.

While your converted videos will now be in a digital format they will not be any better quality than that of the video you supplied. If the video you supply is very old and/or damage this will still be apparent on the converted DVD.

By signing this document you are waiving Duplico Media of all rights & responsibilities of damage incurred to your videotapes during the conversion.
